

3SAE AUTOMATIC ELECTRODE CLEANER (AEC)

The Automatic Electrode Cleaner (AEC) provides a simple and automated method for quickly and consistently cleaning electrodes commonly used in 3SAE's fusion splicing equipment such as the Large Diameter Splicing system or Fitel S185 and fiber stripping products such as the Plasma WorkStation and Fiber Prep Unit II.

Simply insert the dirty electrode into the guide and press the button for 10 seconds to efficiently remove contaminants from the electrode tips. The AEC runs on batteries so no additional power supply is required. Cleaning discs can be easily rotated to an unused location by simply removing the magnetic lid.

Key Features: Automatic Electrode Cleaner (AEC)

- Automated electrode cleaning with the touch of a button.
- Battery operated for portability and easy storage.
- Compact design

Technical Specifications

Feature	Specification
Dimensions	45 (W) x 76 (D) x 102 (H) mm
Weight	0.6 kg
Power Source	9V Battery, qty 2

Standard Package

Part Number	Product	Includes
ACC-01-0143	3SAE Automatic Electrode Cleaner (AEC)	Electronic user's manual, Manufacturer's 1-year parts and labor warranty (Cleaning discs sold separately)

Consumables

Part Number	Product
CON-10-0022	Electrode Cleaning Discs - Black (Pack of 25)
CON-06-0006	Fitel Electrode Cleaning Disc- Pink (ea)
